

# John Thomas Pricone

## Software Developer

863-797-0817 | [itpricone@gmail.com](mailto:itpricone@gmail.com) | Lakeland, FL | [John Thomas Pricone](#) | [LinkedIn](#) | <https://github.com/JT4848>

## TECHNICAL SKILLS

**Front-end:** HTML, CSS, JavaScript, React

**Back-end:** Express, Prisma, PostgreSQL, mySQL

**Other:** C#, .NET

## TECHNICAL PROJECTS

**Squeek | Developer** | September - 2023 | <https://github.com/FSA-team-name/squeek> | <https://squeek.onrender.com/>  
*Twitter clone built as a full stack team project, where users can sign up, log in, post and react to squeeks, customize their profile, and have a section for favorited, liked and disliked squeeks.*

- Uses JavaScript, React Js, Vite, Redux, JWT, Express, Prisma, Tailwind CSS and PostgreSQL
- Implemented the back and front-end authentication using JWT
- Managed front-end for users' profile page to show squeeks, comments and users information, and back-end functionality for updating the users' profile
- Managed back and front-end functionality for favorites component showing liked, disliked, and favorited squeeks

**Strangers Things | Developer** | August - 2023 | <https://github.com/JT4848/strangers-things>

*Marketplace built from scratch with data used from an API endpoint provided by my cohort. User can register, login, post, delete, and look at details of products for sale.*

- Uses Javascript, React JS, Links, Routes, Vite and CSS
- Formatted calls to multiple endpoints to retrieve correct data
- Implemented Links and Routes for navigation
- Implemented CRUD operations
- API used: <https://strangers-things.herokuapp.com/api/>

## WORK EXPERIENCE

**Fabricator and Welder** | Multiple Companies | Central Florida | May 2021 - October 2022

- Executed designs to build approximately 400 utility, deck over, dump and lowboy trailers from the ground up independently and while collaborating with a team
- Maximized ability to problem solve independently or with a team, if there was ever any issues with a welder or something that was being built, I would figure it out myself or with a team of co-workers talking and working through it
- Fabricated new items using unfamiliar blueprints, using resources such as past skills or talking with others that are knowledgeable in that field
- Trained 4 employees in welding and fabricating trailers, as well as the owners, expanding their knowledge on welding and fabricating, allowing the company to expand warehouses from 2,000 sqft to 14,000 sqft
- Achieved a 100% passing rate on quality control inspections

**Selector and Loader | Publix** | Lakeland, FL | October 2020 - May 2021

- Collaborated with a team of 10-20 workers to select and load orders, maintained pace of orders above the 80% minimum requirement making sure the schedule of deliveries were on a steady flow
- Recognized when help was needed and had the ability to ask for help with confidence whether that be manager or another co-worker
- Adapted to other job roles when needed without being forewarned, if the loaders or selectors needed help we would jump in and help, or any other job roles that needed assistance

## EDUCATION

**Fullstack Academy Web Development Bootcamp June 2023 - September 2023**

Software Engineering Certificate

Full-time, Full Stack Javascript Web Development Immersive

**TrueCoders Web Development Bootcamp November 2022 - January 2023**
